

FINDLAW SOCIAL MEDIA PLATFORM

ACCOUNT REMOVAL STEPS

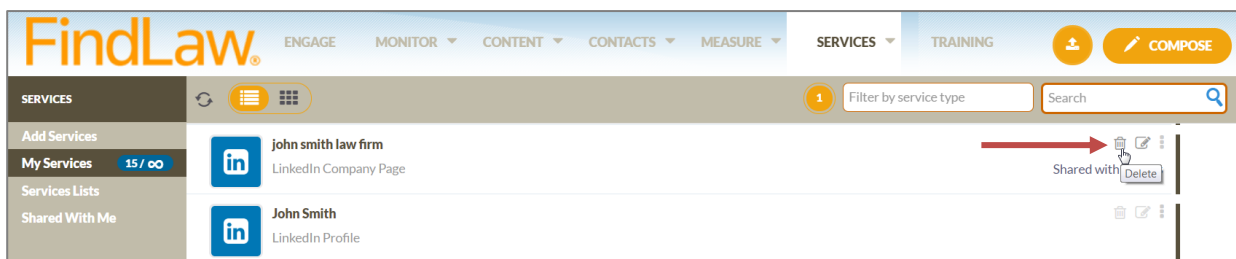

Follow the steps below to learn how to remove your social media accounts from the FindLaw Social Media platform. Removing an account means that you will no longer have the ability to manage the account from within the FindLaw Social Media platform. Furthermore, Blog auto posts will no longer send to the account that was removed. If you have removed an account and would like to add it back to the platform, please see the Initial Connection Guide on the [FindLaw Social Media Training website](#).

Steps to remove social media account(s):

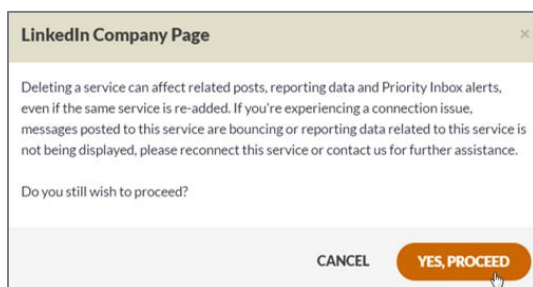

1. Once you are logged in to the FindLaw Social Media platform, navigate to **Services > My Services**.

2. Within **My Services**, find the account that you would like to remove. Click the **Delete** button associated with the account that you would like to remove. Please be aware that there may be multiple streams associated with an account. Delete all streams for the account that you would like to remove.

3. After you click the **Delete** button you will see a pop-up asking if you would like to proceed, click **YES, PROCEED** to complete the removal of the account.

If the account you were attempting to remove is no longer visible under **My Services**, it has been successfully removed.
